DETAILED ACTION

The Amendment received 7/20/04 has been entered. Claims 12-22 remain pending in this application. The amendments to the claims and Applicants' Remarks/Arguments have overcome the rejections recited in the prior Office action.

Allowable Subject Matter

1. Claims 12-22 are allowed; and are renumbered as 1-11.
2. The following is an examiner's statement of reasons for allowance:

Applicant's above-identified Amendment has clearly pointed out the patentable novelty features and the differences between the newly claimed invention and the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

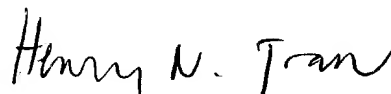

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. It is U.S. Patent No. 6,169,532 issued to Sumi et al., which discloses an electroluminescence display apparatus that is capable of saving power for static displayed image by using a control circuit, a modulator circuit 52, and a switch 41 (see Fig. 10).
